Shelf Life

1 Year

Available in: 1L, 5L & 20L

RUMTEX BIOLOGICAL LAUNDRY POWDER SUPER SINGLE 3in1

Description

Rumtex biological laundry powder super Single 3 in 1 means, it cleans,removes stains and dis infects at the same time of surfactants, destainers, alkali builders, brighteners, enzymes, and sequestrants specially formulated for stain removing in general cleaning of fabrics.

The product is mild to the surfaces of the washing machines and tough on stains. It contains Biological enzymes which provide the penetrating power to engulf and digest organic substrates especially found in hospital linen in a concentration of between 0.5%-1.0%

Shelf Life
4 Years

Key Benefits

- It combines powerful degreasing, foaming, destaining and softening properties.
- It sanitizes linen and is effective over a wide range of temperatures.
- The product is a powder, white in colour & Basic (pH-11 -12).
- It is used on all types of linen and on all types of water (both soft and hard)
- It has in-built anti-clogging agents.
- It is environmentally friendly hence biodegradable
- It readily dissolves in water and is a stable product when handled as directed.

Available in: 1Kg, 5Kg,10Kg and 20 Kg

RUMTEX OXYGEN LIQUID BLEACH

Description

Rumtex Oxygen Liquid Bleach is a combination of oxygen based destainers, sequestrates, stabilizers & organic acids specially formulated for sanitizing & stain removal for both coloured and white fabrics

Key Benefits

- It is a colourless liquid with oxidizing properties and friendly for use.
- It is biodegradable, therefore environmentally friendly.
- It disinfects and removes stains on both coloured and white fabrics.
- Is used effectively on all fabrics in removing dirt/stains.
- Compatible with other cleaning detergents
- Fabrics retain their own natural colours, but brightness is significantly improved.
- It is effective over a wide range of temperatures
- It does not affect original colour of linen.

Shelf Life
3 Years

Available in: 1L, 5L,10L & 20L

RUMTEX SPOTTING RUST REMOVER

Description

Rumtex spotting rust remover is a combination of powerful surfactants, destainers & sequestrates which act on stains forming soluble salts thereby making them loose and easy to remove, leaving the linen spotlessly clean.

Shelf Life
4 Years

Key Benefits

- It removes all types of rust instantly when you spot.
- It is a clear liquid product and mildly acidic
- It strongly attacks the stain (substrate) by forming a soluble salt that dissolves in water.
- It is tender on fabrics and does not cause any linen to disintegrate.
- It is environmentally friendly and biodegradable.
- It works well in all ranges of Temperature.

Caution

- Chemical resistant gloves and overalls should be worn during prolonged handling operations.

Available in: 250MI, 500MI, 1L, 5L, 10L & 20L

RUMTEX INK STAIN REMOVER

Description

Rumtex Ink Stain Remover is a combination of destainers, sequestrates, and stabilizers specially formulated for removing ink stains on all types of linen.

Key Benefits

- It is a clear alkaline liquid.
- It removes ink stains from all types of linen.
- It is solvent based.
- Works in cold temperatures or room temperature.
- Works on all colours of linen.
- Does not disintegrate the fabric.
- It is biodegradable, therefore environmental friendly.

Shelf Life

4 Years

Method Of Application

Sort out ink stained linen and spot the linen inside out using a sponge. When the ink is significantly reduced soak the stained part of the fabric. If many clothes are stained, soak as follows:-

- Add 5ml per Kg of linen and soak for about 1 hour. Add enough water to sub-merge.
- Remove and wash with Rumtex brand of detergent as usual

Available in: 250MI, 500MI, 1L, 5L, 10L & 20L

RUMTEX FABRIC SOFTENER

Description

Rumtex Fabric Softener & Conditioner is a high quality product specially formulated for both hand and machine washing. It improves texture of the cloth, and also ensures that the fabric is softer and fluffier

Key Benefits

- It is a white and highly viscous liquid.
- It enhances fabric softness.
- It enhances in static hold and gives a comfort to wear
- Slows down aging of fabric fibres.
- Easier to iron
- Imparts floral freshness thus a fresh fragrance

Shelf Life

4 Years

Available in: 1L, 5L, 10L & 20L

RUMTEX LINEN DISINFECTANT

Description

Rumtex Liquid Linen Disinfectant combines chloride based sanitizers, quaternary ammonium compounds and a carrier solvent specially formulated for linen disinfecting.

Key Benefits

- It is an alkaline liquid, pH 8 -9.
- Has a high penetrating power.
- It is effective both at room and high temperatures.
- It can be used in all types & colours of Linen.
- It is biodegradable
- It destroys a wide range of micro-organism
- It is compatible with other Rumtex laundry detergents.

Shelf Life
4 Years

Available in: 1L, 5L, 10L & 20L

RUMTEX BOOSTER

Description

Rumtex Booster is a combination of surfactants, degreasers, alkali builders, brighteners, enzymes, and sequesterants specially formulated for general power boosting of detergents and remover of all types of oils/grease. The product is mild to the surfaces of the washing machines and fabrics hence the machine is not corroded

Shelf Life
4 Years

Key Benefits

- It is a completely neutral liquid
- It is able to remove extreme fat stains and heavily soiled textile.
- Can be used as an additive to the normal washing process in low as well as high temperature regions.
- It is mild to the surface of the washing machine.
- It is environmentally friendly and biodegradable
- It forms an homogeneous mixture hence boosting the cleaning process

Available in: 1L, 5L, 10L & 20L

MORECARE ORGANIZER- R01

Cip/ctc/cfu/uht & Bottle Washing Detergent)

Description

Organizer-R01 is a heavy-duty detergent cleaner based on high causticity specially formulated for bottle washing, CTC/CFU/CIP/ UHT cleaning systems in dairy industries, soft drink plants, brewery, and food industries, in all water types.

Application

Organizer-R01 is suitable for use in all types of bottle washers.

Concentrations will depend on the type of bottle washers, number of tanks and soil loading.

Typical concentration rates would be between 1-5% v/v depending on the number of detergent tanks and type of labels being removed.

Organizer has been found to be particularly effective on rust rings and small tenacious moulds found on the bottles

Shelf Life

1 Year

Available in: 1L, 5L & 20L

MORECARE ORGANIZER- R02

(Cip/ctc/cfu/uht & Bottle Washing Detergent) Heavy Duty Powder Cleaner

Description

Organizer- R02 is powdered, low foam, heavy duty alkaline based detergent suitable for all types of water. It can be used for a wide range of applications in all food and beverage industries, dairy, tea, hotel, hospital industries, etc

Physical/chemical Properties

Organizer - R02 is a highly active alkaline powdered detergent with low foaming properties and is suitable for use in medium to hard water

Organizer -R02 is highly effective at removing a wide range of organic soils and preventing scale build up

Organizer - R02 Can be used in a wide range of applications including CIP/CTC/CFU/UHT, Bottle Washing Detergent, keg washing, floor cleaning, fryer/cooker boil-outs and degreasing of new equipment.

Benefits

- Gives highly cost-effective cleaning performance.
- Provides a high level of causticity for the removal of tenacious soils.
- Low foam wetting properties provide improved cleaning efficiency.
- Inhibits scale build up and prevents nozzle blockage.
- Improving operational efficiency and effectiveness.

Available in: 5L & 20L

MORECARE TOP-LEVEL

(Heavy Duty Acidic Detergent & Descalant for Industry Applications)

Description

Top-Level is a blend of Nitric Acid, Phosphoric Acid and surfactants specially formulated for removing strong milkstone and preventing scale formation in milking machines, bulk milk tanks, CFU & CTC systems when used regularly in hard water areas. Is a low foaming, concentrated acid cleaner suitable for use in food, brewing and dairy processing plants. It can be comfortably be used on aluminium and stainless-steel plants and equipments.

Key Benefits

Dairy Industry:

H.T.S.T., U.H.T. & Evaporator Plant:

Use a hot solution of Top-Level (1-10.0% v/v solution) for routine cleaning before or after the caustic circulation in two stage cleaning of this plant. Rinse with clean water after cleaning. Soaking can be done for 15-20 minutes at 80oC

Pipe & Tanks

Clean regularly with Top-Level as required using cold or warm (approx. 50oC) solution at a concentration of 1.0-2.2% v/v

Churns:

Remove milkstone by soaking in a 1.0% v/v warm solution of Top-Level. Alternatively, operate churn-washer for 2-3 days using a 0.5% v/v solution of Top-Level

Available in: 5L & 20L
